TOLL SOLUTIONS ANNOUNCES STRATEGIC CONSOLIDATION

Three Companies Unite Under Single Legal Entity to Better Serve Customers

DUNCAN, SC – November 5, 2026 – Toll Solutions is pleased to announce the consolidation of three leading chemical manufacturing and solutions providers into a single legal entity operating as Toll Solutions, LLC. This strategic move unifies Toll Solutions, Alinea Chemical Solutions LLC, and FCI Technology under one corporate structure while preserving the distinct market approaches and customer relationships that have made each division successful. The consolidation will be finalized on January 1, 2027.

PRESERVING DIVISION STRENGTHS

Under the new structure, Alinea Chemical Solutions LLC and FCI Technology will continue to operate as divisions of Toll Solutions, LLC, maintaining their brand identities, customer service approaches, and market focus. This ensures continuity for existing customers and partners across all three business lines.

> “Our customers can be confident that the service, quality, and expertise they’ve come to expect will not only continue but will be enhanced through this consolidation,” said Joseph Wilson, Owner and Founder of Toll Solutions. “Each division will maintain its unique market approach while benefiting from increased operational efficiency and shared resources.”

STRATEGIC BENEFITS

The consolidation is designed to streamline organizational structure and business processes, enabling the company to:

- Enhance operational efficiency across all divisions
- Optimize resource allocation and capacity utilization
- Strengthen financial stability and growth potential
- Improve customer service through shared best practices
- Accelerate innovation and technical development
- Expand capabilities in specialty and commodity chemicals

COMMITMENT TO CUSTOMERS AND MARKETS

All existing customer relationships, contracts, and service agreements will remain in full effect. The consolidation will be transparent to customers, with each division continuing to serve its respective markets with the same dedication and focus.

> “This is about building a stronger foundation for the future while preserving what makes each of our businesses successful,” Wilson added. “By unifying our legal structure, we’re positioning ourselves to invest more effectively in our people, facilities, and capabilities—all in service of our customers.”

OPERATIONAL CONTINUITY

All three companies will continue normal operations at the Duncan, SC location:

- 310 Spartangreen Blvd, Duncan, SC 29334

The existing management teams, technical staff, and customer service representatives at each division will remain in place, ensuring seamless continuity for all stakeholders.
